Personal Summary

B.Tech Information Technology graduate with hands-on experience in frontend development through a 3-month internship and real-world projects. Proficient in React.js, JavaScript, Python, and Django, with experience building responsive, user-focused web applications. Strong interest in full-stack development and emerging technologies, with a proven ability to learn quickly and contribute effectively to collaborative teams.

Skills

Programming Languages: Python, JavaScript, HTML, CSS.

Library/Framework: React, Django, Flask, Tailwind CSS

Database: MySQL, PostgreSQL

Tools & Technologies: Git, GitHub, REST APIs, Agile (Scrum)

Education

Jeppiaar Engineering College
B.Tech in Information Technology | CGPA: 7.5 (2025)

Maharishi Vidhya Mandir Matric. Higher Secondary School
12th Grade | Score: 81.62% (2021)

Projects

Document Management System (DMS)

- Developed a full-stack Document Management System using React.js and Django as part of a live internship project.
- Implemented user authentication, role-based access control, and secure file upload/download features.
- Collaborated with cross-functional teams to improve usability and performance.

Deep Fake Forensics Detection

- Designed a Deep Fake Detection system using **Capsule Siamese Networks** to identify manipulated visual content.
- **Built a Flask-based web app** with Python, MySQL, and TensorFlow for real vs. fake facial image comparison. Applied the solution to digital forensics and media verification use cases.

Internships

Frontend Developer – VDart, Trichy (3 months)

- Worked as a Frontend Developer on a live web application using **React.js.**
- Coordinated with backend developers to ensure smooth data flow and responsive design.

Accomplishments

Yuva Club Volunteer: Organized and managed events for 100+ participants, demonstrating leadership and teamwork skills.

Sports Achievements: Winner in chess tournaments and represented the college in cricket tournaments.
